3. PERSONNEL: A. TDY's [ ]

4. RESEARCH and DEVELOPMENT: A. Hypoxia Warning System - The hypoxia warning system that was under consideration for installation in the MA-2 High Altitude Helmet has been discontinued.

halo parachute with 35 ft canopy into the 6 ft section by 2 ft 6 in canopy  
will greatly decrease the pilots rate of descent, especially in areas of high terrain,  
and will subsequently lessen the pilots danger of being injured upon ground impact.

C. Parachuts - This organization has agreed to assist [ ] by relieving their  
dual canopy release parachutes and having them modified to incorporate a right hand  
rip cord release. We will ship the parachutes [ ] after completion of modification.
